

**Tourism development in Al-Petra and comparing it with tourism in Sharm****Al-Sheikh and Dahab****Dr. Kadrya el-bendary****Abstract**Methods of developing tourism in Al-Petra

World eyes started going towards Al-Petra. This flourish city has a remarkable feature. Allah gives it elements of natural attraction. Therefore, all sectors of society shall be stand together for arising sustainable tourism development of Al-Petra.

A lot of tourists have a desire to know peoples traditions and customs and what result from these traditions like handicrafts, public arts and Bedouin carnivals (such as: horses and camels race). The reason for that is to attract tourists to know this social inheritance.

Suggestions that I present for developing tourism in Al-Petra:

- Monuments places shall be exploited, specially the remarkable old monuments which rarely found in the world.
- Spreading enlightenment of tourism and monuments for maintaining inheritance of old civilization.
